(e) and (f) Yes, Sir. Details of activities for promotion of Coal Bed Methane (CBM) and Underground Coal Gasification (UCG) are given as under:—

In order to harness CBM potential in the country, Government formulated a CBM policy in 1997. A total of 16 CBM blocks have been awarded so far (3 on nomination basis, 5 under CBM-I round and 8 under CBM-II round) for exploration and production of CBM. In addition, a demonstration project named Coal Bed Methane Recovery & Commercial Utilization has been taken up in collaboration with United Nations Development Programme (UNDP) and Global Environment Facility (GEF). The project has been sanctioned by Government of India in September, 1999 and is under implementation at Sudamdih and Moonidih mines at BCCL.

CIL and ONGC have decided to take up project for establishing UCG technology. A draft MOU has already been approved by Board of Directors of CIL. Initial work of data exchange needed for identification of trial site has already been taken up.

NLC proposes to take up a UCG project in a suitable lignite block in Rajasthan under Ministry of Coal's S & T programme and Department of Science & Technology funding at a total cost of Rs. 1125 lakhs.
